Samsun, Türkiye · Open to remote

I build mobile products end to end with Flutter. At Bulut Yönetim I owned a field app used by 5,000 people every day, led a team of three and shipped 30+ apps to the stores.

5+ years of experience **30+** apps shipped **5K** daily active users **3** person team led

EXPERIENCE

Mobile Application Developer · Freelance (Remote) 01/2021 — present
Shipping cross-platform mobile apps for clients across industries, from idea to store release. Flutter, Firebase and third-party API integrations.
30+ projects · 15+ clients

Mobile Application Developer · Bulut Yönetim (Full-time) 02/2022 — 04/2025
Built large-scale field operations and property management apps in Flutter on top of the Bulut Yönetim platform. Integrated licence plate recognition, meter reading, online payments and push notifications. Led a team of three and set up code review practices.
5K+ daily users · 3 person team

Flutter Trainer · Code Academy (Contract) 07/2023 — 08/2023
Taught Flutter to beginner and intermediate developers. Designed the curriculum covering state management, API integration and clean architecture.
40+ students

Mobile Application Developer · Apti (Full-time) 02/2022 — 01/2023
Built and maintained features of a PropTech app for apartment, estate and plaza management. Real-time data and notification infrastructure.
2K+ residents

Mobile Front-End Developer · BlindLook (Contract) 03/2022 — 06/2022
Built Flutter interfaces for visually impaired users, focusing on screen reader support, accessibility standards and rendering performance.
